GOLF

•**The Keystone Ranch Golf Course** is located in a mountain valley rimmed by towering peaks. The 7,090-yard, par 72 course was designed by Robert Trent Jones Jr. and retains the rustic flavor of the area when it was first settled in 1870.

•The River Course at Elk Run

Award-winning designers Hurdzan and Fry created this course so as not to disturb local vegetation and wildlife. The front nine follows the Snake River and the back winds through the mountain on this par-71, 6886 yard course.

With two golf courses, Keystone offers a total of 36 holes. That's 36 opportunities to see if a golf ball really does go farther at 9,300 feet above sea level. Tournaments, lessons, clinics, club storage, and club rental are also available. Complimentary shuttle service available to both Golf Courses.
